

To whom it may concern

Baar, 16. February 2021

**EN 45545-2 (Fire protection on railway vehicles)**

**Manufacturer Statement**

Manufacturer Declarations according to the fire protection standard EN 45545-2 (Railway applications - Fire protection on railway vehicles - Part 2: Requirements for fire behaviour of materials and components) are available on request for our railway product range.

TRACO POWER railway products, which comply to that standard, have it mentioned in the datasheet.

If you need an EN 45545-2 declaration for one of our TRACO POWER products, please contact us using our service portal and describe your document order request:
