

Product Change Notification

Date February 23rd 2021
No. 028-21

TRACO POWER TEN 40E and TEN 40WIE series

To whom it may concern

Base plate preparation for additional heatsink mounting options

Subject product series have undergone a minor package design change. To be able to mount additional heatsink options the base plates of the TEN 40E and TEN 40WIE now received four additional slots for mounting clamps on the long sides.

This change has no effect on the performance of the converter and all electrical and mechanical specifications/characteristics remain unchanged.

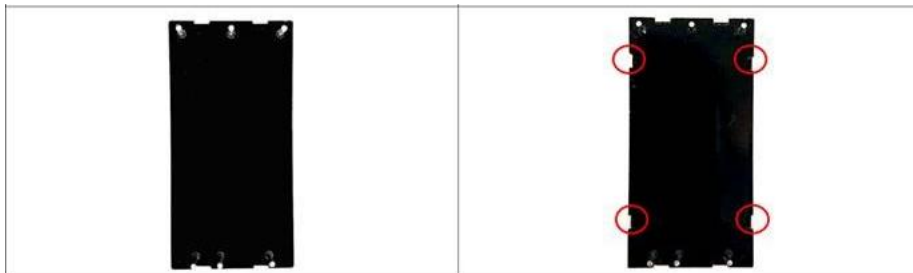

Timeline:

The product change is active for all models since production date 2021 CW1.

Change details:

Phased out package design

New package design

The exact positions of the new slots can be seen on the updated 3D-files online on our website: www.tracopower.com/overview/ten40wie

For more information contact your local TRACO POWER sales representative or Distributor.

We thank you for your understanding.
