The THL 30WI series extends Traco Power's existing 30 Watt DC/DC converter portfolio with a new generation of 1" x 1" package converters. With the focus on combining cost efficiency and quality this isolated high performance 30 Watt DC/DC converter series is suitable for many different applications. The series comes in an encapsulated, shielded 1" x 1" x 0.4" metal package and offers integrated remote on/off and trim functions. High efficiency up to 88% enables the converter to operate from -40°C to +60°C without derating. All models have a wide 4:1 input voltage range and precisely regulated, isolated outputs. The series meets the latest IT safety certifications (UL 62368-1) and is suitable for uses in mobile equipment, instrumentation, distributed power architectures in communication and industrial electronics and everywhere where cost efficiency and quality are critical factors.
