End Of Life Announcement, TRACO POWER TSL Series

To Whom It May Concern

Certifications for TRACO POWER **TSL Series** (30-480 Watt DIN-Rail Power Supplies) have expired and can not be upgraded for technical as well as economical reasons. In consequence, TRACO is forced to declare the discontinuation of subject Product Series. Factory production order entry acceptance will terminate end of December 2014. Accordingly, customers are requested to place their Last Buy Orders to TRACO or its Distributors by December 15. 2014.

100% drop-in TRACO POWER substitutes do not exist for TSL Series. However, customers may perform replacement evaluations on following TRACO POWER Series: **TSPC; TSP; TIS; TPC** (use embedded datasheet links)

Approval of the replacements is subject to full customer evaluation and responsibility.

Thank you for your understanding, best regards,

Traco Electronic AG
